

RULEWAVE®

INTERNATIONAL SHIPPING & FORWARDING

Corporate social responsibility

Corporate social responsibility

When you see as much of the world as we do, you want to do everything in your power to protect it. Where possible, we accept our own responsibility in this area by making conscious choices with regard to our materials and processes.

We will always take sustainability considerations into account when advising our clients about optimum shipping and forwarding solutions.

ISO 9002, ISO 14001 and beyond

With quality management and sustainable enterprise, actions speak louder than words. Consequently, we view our ISO 9002 and 14001 certifications as a formality more than anything else. We try to go the extra mile – by using electrical rather than conventional fork-lift trucks, for example. Our entire fleet has now been awarded a B label.
