

Special projects

If you have an unconventional transport consignment, Rulewave is happy to offer a tailored solution. Irrespective of how wide, heavy or unwieldy the cargo in question is, we'll make sure that it's delivered on time.

We're up for any challenge

We have experience with the most challenging transport projects and can handle any type of project cargo for you. First we determine the best and most efficient mode of transport, which could be anything from a flatbed trailer to a heavy lift ship to more conventional transport by rail. We then proceed to arrange all the permits and formalities involved in this kind of special project. Just sit back and relax: we'll take care of all the details.
