

RULEWAVE®

INTERNATIONAL SHIPPING & FORWARDING

Trucking

Trucking

As an independent company, Rulewave can guarantee short lines of communication with you, the client. And thanks to our own fleet and team of drivers, we can immediately make promises that we can keep as well as clear agreements on the road haulage services you require.

Fast transport from door to door

Are you looking for a rapid road transport service through the Benelux at a competitive rate? Just call Rulewave and it's sorted. For destinations farther afield, it's usually cheaper to use our fleet of ships or air freight, but where required we'll drive to any destination in Europe. We work with our own team of experienced drivers and are ADR approved, so your hazardous materials are in skilled hands at all times.
